

Introduction

Paul Ramskill and Donna Allan
Sport and Active Leisure Team

Aims Keeping the community informed and updated.

Following the upgrading of the Lincoln Court independent living community, the former Multi-Use Games Area (MUGA) from Kingsway West has been taken out and we are working with York Acorn Rugby League Club to look to install a new artificial grass MUGA on their club site.

We are investigating the suitability of the land and will work with the club and local community to get the best facility we can, to cater for Rugby League, Football and additional sport and physical activity opportunities. The site will have times that are free to access and times where sports clubs can train built into a programme of use.

Giving people a say, Getting involved

- MUGA surfaces offer a consistent surface to play on all year round, that's a vast amount of potential playing hours over the winter months when physical activity levels decline.
- What sports and activities would the community like to see, do you see yourself using the facility, and when and at what times should this be open for the free to access sessions?
- Views on community concerns and an opportunity to make suggestions.
- Keeping the community informed on how things are developing.
