Annex A: Consultation results

It is required as part of the application to share powers under Part 6 of the Traffic Management Act 2004 to conduct a public consultation. This is to establish the public opinion for taking on the powers, to take views on the proposed pilot and to receive views on other locations in the City that have an issue with road safety that would benefit from the implementation of this technology.

The survey was conducted online for 6 weeks and closed on the 25th August 2023.

The survey comprised of four questions. The questions and results from the survey are in the tables below.

It is important to note that this consultation was to gain a view in order to progress the application for the powers. Each individual scheme, including the pilot, will be subject to itself own consultation.

There were 58 responses to the online questionnaire.

Question 1

As a whole, do you feel that the Council applying to DfT for these powers to enforce violations using ANPR is a good idea?			
Answer Choices	Responses		
Yes	71.15%		37
No	25.00%		13
Not sure/ don't know	3.85%		2
	Answered		52
	Skipped		6

Question 2

To what extent do you support or oppose using ANPR (Automatic Number Plate Recognition) powers to enforce the one way restriction through Micklegate Bar.			
Answer Choices		Responses	
Strongly support	55.77%	29	
Support	17.31%	9	
Neither support nor oppose	0.00%	0	
Oppose	11.54%	6	
Strongly oppose	15.38%	8	

Don't know	0.00%	0
	Answered	52

Question 3

Moving Traffic Enforcement

Do you think there are any negatives to applying for these powers?

Answered 36

Skipped 22

07/00/0000	
27/08/2023	no
	The (potential) unsightliness of the cameras depending
	on how and where they are installed. Signage will be
	installed in line with the TSRDG and local signage
	guidance in order to ensure full compliance and
26/08/2023	sensitivities in the area.
	The application increases the growing surveillance
	culture unnecessarily. The one way system could be
	enforced with physical measures, like we find at the
	exits to some car parks, for example. This could be
	but it will be costly and high maintenance. Any
	sort of barrier in the highway would increase the
	risk of a road safety issue and impact on the traffic
26/08/2023	flow.
24/08/2023	yes
	ANPR is a technical solution that leads to other
24/08/2023	technological surveillance uses, which is a bad thing.
	More surveillance, more fines. Please don't proceed
	with this. This is a possibility but this will ensure
	more compliance and supporting road safety.
	These are a recognised tool that have been
	assessed nationally for this purpose and has
24/08/2023	proven to be a very effective deterrent.
	Operational cost if they achieve compliance with
	regulations. Intrusive signage at historic location? All
	signage would be installed in line with TSRDG and
24/08/2023	local design guides.

	Huge invasion of privacy and overuse of surveillance
20/08/2023	technology. It should not be used anywhere.
	Yes. Stealth tax. It will impoverish residents with more
	taxes, it increases surveillance and deter tourists. All
	round it's a bad idea. Fines would only be issued
19/08/2023	against those breaking the law.
	Presumably there will be a cost to implement the
	scheme? Can the money be spent more wisely
	elsewhere or does it deliver good value for money?
	For, example, there are alternative ways of enforcing
	the one way through the bar. A simple curb that runs
	up to the pedestrian crossing would act as a deterrent
	as it places the driver on the wrong side of the road.
	The standard traffic lights could be replaced with small
	ones clearly intended for cyclists. Despite signage
	and the traffic systems, observations and a traffic
	survey have shown there is a concerning number
	of drivers passing through the restrictions in the
16/08/2023	wrong way
16/08/2023	No
	TFL London has just been told that the use of ANPR
	cameras for prosecutions is illegal and all fines could
	have to be re-payed. Instances such as a person
	pulling up to the kerb to pick someone up in a bus lane
	for literally seconds or moving into a yellow box to
	allow emergency vehicles through have brought about
	fines.
	by the cameras which is in just. Have you learnt
	nothing from the Lendal Bridge and Coppergate
	fiasco's?? Any new sites coming forward would be
	assessed and reviewed to ensure any use of
	ANPR, signage and lining is compliant. This would
	also be supported by a warning period for drivers
	and communications to make the public aware of
10/08/2023	any new sites covered by this type of enforcement
09/08/2023	No
09/08/2023	No
	People are already struggling, fining them isn't great,
09/08/2023	but they shouldn't be breaking the law in stupid ways.
08/08/2023	No

	The inability to discuss infringements with a real
	person and being criminalised for simply making a
	mistake. Particularly with people not used to the area.
	There will be a warning period before a fine is
	issued for a 6 month period. After that there is an
	objection and appeal route for anyone who wishes
	to evidence any infringement that will be
	considered on it own merit and with the evidence
08/08/2023	the driver submits.
	A perception from residents that motorists are being
	targeted and that CYC is using the powers as a money
	making exercise. If people obey the traffic laws then
08/08/2023	they will not be fined.
	applying for those powers will result in less
	police/traffic wardens on the streets. At the moment
	the police do not have the resource to police this type
	of enforcement and CEOs (Traffic Wardens) will still be
00/00/000	present on their patrols where additional resource will
08/08/2023	be brought in as an when.
	Yes, the cost and then when do you stop extending
	these powers, as the creep generally occurs - I do not
	want to live in a surveillance state. Educate Road
	users, provide clear simple guidelines and stop using the motorists for revenue production. The previous
	record of the council for these types of schemes in the
	past has resulted in complete failure with wrongly
	issued fines having to be repaid and costing the people
	of York even more in misallocated resources. All
	current signage and measures are legally
	compliant. The issues are to do with some road
	users ignoring these restrictions and causing a
	danger to other road users who are complying with
08/08/2023	these restrictions
08/08/2023	No
	Passive intrusion into personal freedom as ANPR will
	monitor traffic even if behaving legally. The cameras
	will be monitoring this but automatically done.
	Only those breaking the law will be passed on to
08/08/2023	be assessed by an operator.

	If they are open to legal challenge by motorists who
	oppose them! There is an objection, appeal and
	independent appeal process in place that bases an
	decision on the cameras evidence and that provided by
07/08/2023	the motorist
01/00/2023	No, as long as the system is consistent. Legislation
07/08/2023	makes this so.
01/00/2023	No, but they should be supported by clear signage.
07/08/2023	This is a legal requirement.
01/00/2023	Micklegate Bar is a clear nono.
	Mickiegate bai is a clear nono.
	Other uses a graf bus lones at 4am are for loss
07/09/2022	Other uses e.g. of bus lanes at 4am are far less serious.
07/08/2023	
	Yes over zealous application in order to raise funds as
	York is known to be anticar. If powers also used to
07/08/2023	prosecute cyclists who ignore the Highway Code then would be fairer.
01/00/2023	
	Tourists will be penalised without being helped.
	Signage used is that seen across the rest of the UK
	so road users will see the restrictions but there is
	I an onjection and appeal cervice chollin anyone
07/00/2022	an objection and appeal service should anyone
07/08/2023	issued a fine can use.
07/08/2023 07/08/2023	issued a fine can use. No
	No. I wish that it could be used across the whole city
	No No. I wish that it could be used across the whole city and that the Council pushes so that Local Authorities

01/08/2023	Potential reputation risk to York/the council from misapplication of the powers, or an excessive number of fines being issued for use where scheme design or implementation is insufficiently clear to road uses (e.g. Lendal Bridge bus lane, Coppergate before the signs were updated/relocated). Fines will only be issued to any vehicle contravening the local highway order.
01/00/2020	Privacy risks and hugely inappropriate. These are
	assess and certified along with a Data Protection
	Impact Assessment to ensure compliance against
19/07/2023	data protection laws.
	Obtrusive signage / camera in sensitive location?
	Signage will be installed in line with the TSRDG
17/07/2023	and local signage guidance in order to ensure full compliance and sensitivities in the area.
	It could be seen as a money making scheme rather
	than a safety initiative. Fines will only be issued
	follow a 6 month warning period, to those who
	break the contraventions set out in national
17/07/2023	legislation and the local highway traffic order.

Question 4

Moving Traffic Enforcement

Are there other locations we should consider for enforcement

in the future?	
Answered	33
Skipped	25

Response Date	Responses
27/08/2023	Scarcroft Road
	No right turn onto Skeldergate from
	Skeldergate bridge. The bus lane through to
26/08/2023	James street next to Morrisons.
24/08/2023	no
24/08/2023	Turning right out of Lendal (only left is permitted).
24/08/2023	No
	Victoria Bar (instead of rising bollards). Piccadilly- Stonebow. Box junctions /banned turns around inner ring road. Red light jumping
24/08/2023	at problem locations?
20/08/2023	Nowhere"
19/08/2023	Outside every councillor's home so we can track and track and monitor their movements.
	Box junctions throughout the city. Drivers often ignore the hatched areas that are meant to be kept clear, and clog up other traffic flows from moving through the junction.
16/08/2023	Right turners out of Lendal, although I would argue that this should be achieved using an extension of the island, with a cycle filter so that cyclists can continue to turn right.
10/08/2023	No they should never be allowed in our city in the first place. It is a waste of our extortionate council tax payers money.

Any traffic lights that have ASL to protects cyclists, if permitted. If not, junction of Lord Mayors Walk. 09/08/2023 Not sure This is the problem, where else are they going to go? 08/08/2023 Tesco Askham Bar roundabout Junction of The Mount/Scarcroft Rd where the yellow box is routinely ignored. Jumping red lights occurs in numerous locations. no, what we need is to have sufficient police to police the law, we got enough cctv. this is aimed to earn money for the council, not to make it safer or anything. sort public transport in the city so people can get to work without having to pay a taxi/uber/neighbour to bring them to work (specially for those working sundays/bank holidays) 08/08/2023 None 08/08/2023 Not at present Cycling restrictions on Coney Street and Spurrier Gate 08/08/2023 Gillygate Museum Street and Bootham Victoria Bar! Far cheaper than replacing the mechanical barriers there. Also box junctions around the inner ring road and on the main radial routes in York Victoria bar, to replace the defunct rising bollards, increasingly used as a rat run. Also the forbidden right hand turn onto Skeldergate from Bishopgate st going south O7/08/2023 Gillygate bootham junction Lots. Try Green Lane in Acomb every evening around 7pm. Lots of speeding there and people cycling on the pavement around a blind bend. Areas outside schools (to be accompanied with a citywide standard for school crossing facilities outside schools). Need more traffic enforcement officers in city centre
