

Family owned since 1808, the Drappier family are viticulturists as well as handcrafting Champagnes for 8 generations. Based in Urville in the Aube, where Pinot Noir is king, the Drappier family has 212 years of history and experience in Champagne making. Today, Charline, Hugo and Antoine along with their father Michel, still craft complex Champagnes from their unique calcareous terroir and still cultivate the forgotten grapes of Champagne.

Sustainability pioneers, the Drappiers have been investing for over 10 years to massively reduce their carbon foot print and protect their soils for the coming generations. Today, they are the leaders in sustainability and are Champagne's first and only, carbon neutral certified house. Terroir driven, while practicing minimal intervention and minimal dosage, Champagne Drappier is a new wave producer keeping the champagne dream alive.
