Notes						
The calculation of the subsidy on the NYCC contract assumes that take-up remains constant. However, increased at higher selling price levels to try and build in the possible implications of this.	as take-up has the pot	tential to decrease if t	he selling price ris	ses, the contract to	pp-up has been	
Option 1 (freezing the selling price) would require most of the grant to be used to subsisdise the contract	in 2009/10. leaving ve	rv little funding for oth	er initiatives / equ	Jipment		
Option 2 (a 5p increase in the selling price), would leave a significant amount available for equipment, but						1
Option 3 (a 10p increase in the selling price), would leave an amount for equipment, and leaves a small (						1
Option 4 (a 15p increase in the selling price to the price set out in the last Schools Forum report), would le			for equipment, a	nd leave a significa	ant carry-forward in	to 201

The options above only cover the academic year 2009/10.						<u> </u>
The School Meals Grant has been confirmed until the end of 2010/11. The 2010/11 financial year allocat	ion of approximately £	244k can be used to	subsidise the con	tract in the 2010/1	1 academic year.	1
Broadly, every 5p subsidy on the selling price equates to approximately £70k of subsidy required, therefore	re, moving forward into	o the 2010/11 acaden	nic year the grant	could support a 15	5p subsidy
