Richard Haswell,

Many thanks for asking my views on the issue of a review of Hackney Carriage Licenses. In my opinion there is ample work for the vehicles that are licensed at the moment and also enough work for more to be released.

Taxi Drivers unfortunately a vast majority have been and are still short sighted and narrow minded, gone are the days when individuals could go to work and earn a living in a short period of time. Due to today's economic climate you now have to go to work longer but the work is still there and would be more of it but for the short sighted and narrow minded people whom run Station Taxis. (who's business acumen seems none existent).

As for the aforementioned economic climate will it be short term, long term, who knows will it be forever no. Should there be a release of more Licenses until a review in 2011 ?
Yes.

Dear Mr Haswell,

Thank you for your letter dated 24th Sept 2009 regarding further issue of Hackney licences, I have the following to comment;

1. Yes further licences should be issued as there is sufficient room for 10-15 more.
2. Currently there is un-met demand as many drivers do not work at peak time, ie-5pm -7pm and then later 1am -4am.
3. Licences should only be issued to individuals who are interested in working and not profiting from the sale of such licence.

I would like you to confirm to me what is my current position on the waiting list please, as I was previously informed I was next in-line to be issued a licence.

I thank you in advance for your assistance.

Dear sir

As someone who is in the top ten & have waited a lot of years for this opportunity. I have my hopes up of being allocated a Hackney vehicle licence. I would be very disappointed if this policy was stopped before June 2011.

I would also like to say as a private hire driver. the company I work for have noticed a slight upturn in business.

So my wish would be for the council to stick to the agreed policy till June 2011.

Yours sincerely,
