KCR 0021 Corporate Performance Management Framework

Corporate Lead Kersten England

The council has a duty to provide value for money services to meet the needs of the citizens in York and to be accountable to local people where this is not achieved. Failure to effectively manage the council's performance could impact adversely on the council's reputation both at a local and national level. As such the council's corporate performance management framework must be robust and provide a level of assurance which enables both officers and Elected Members to make informed decisions
