--	---

Scrutiny Topics Proposed at Scrutiny Work Planning Session on 13 June 2013-06-14, largely in the following priority order:

- **Men's Health** – stemming from a presentation given by Professor Chris Bentley to the Health and Wellbeing Board in April 2013 and the knowledge that there is a significant proportion of male premature deaths in York between the ages of 35 and 65.
- **Loneliness** – As requested by the People with Long Term Conditions Partnership Board, to address loneliness across the city and look at the scale of the issue and what can be done to provide support etc.
- **Partnership Working – Hospital Discharges**: The relationship between Social Services, Ambulance Services and the hospital, and how this potentially affects the hospital meeting its targets.
- **Smoking Cessation**: To look at ways of potentially encouraging people in York to stop smoking
- **Dementia Friendly City**: To examine progress towards really creating a 'dementia friendly city' and identify what still needs to be done to culturally establish this approach in York

Other topics could include:

- **IAPT** – Improving Access to Psychological Therapies
- **DTOC** – Delayed Transfer of Care
- Multi-Agency Safeguarding Hubs
