## **Appeals Performance and Decision Summaries**

### **Summary**

- 1 This report (presented to both Planning Committee and the Sub Committee) informs Members of the Council's performance in relation to appeals determined by the Planning Inspectorate from 1 January to 31 March 2014, and provides a summary of the salient points from appeals determined in that period. A list of outstanding appeals to date of writing is also included.

### **Background**

- 2 Appeal statistics are collated by the Planning Inspectorate on a quarterly basis. Whilst the percentage of appeals allowed against the Council's decision is no longer a National Performance Indicator, it has in the past been used to abate the amount of Housing and Planning Delivery Grant (HPDG) received by an Authority performing badly against the average appeals performance. The Government announced last year that it will use appeals performance in identifying poor performing planning authorities, with a view to the introduction of special measures and direct intervention in planning matters within the worst performing authorities. This is now in place for Planning Authorities where more than 70% of appeals against refusal of permission for major applications are allowed.
- 3 For a number of recent years, until the publication of the National Planning Policy Framework (NPPF) in March 2012, appeal performance in York was close to (and usually better than) the national average. Following the publication of the NPPF our appeal performance declined.
- 4 The table below includes all types of appeals such as those against refusal of planning permission, against conditions of approval, enforcement notices, listed building applications and lawful development certificates. Figure 1 shows performance on appeals decided by the Inspectorate, for the last quarter 1 January to 31 March 2014, and for the 12 months 1 April 2013 to 31 March 2014.

Dismissed	7	22
Total Decided	12	33
<b>% Allowed</b>	<b>42%</b>	<b>27%</b>
% Part Allowed	0%	6%

### **Analysis**

- 5 The table shows that between 1 January and 31 March 2014, a total of 12 appeals relating to CYC decisions were determined by the Inspectorate. Of those, 5 were allowed. At 42% the rate of appeals allowed is above the national annual average of around 33% and higher than our previous quarter figure of 18%. By comparison, for the same period last year, 6 out of 15 appeals were allowed, i.e.40%.
- 6 For the 12 months between 1 April 2013 and 31 March 2014, 27% of appeals decided were allowed, lower than the previous corresponding 12 month period of 42%.
- 7 The summaries of appeals determined between 1 January and 31 March 2014 are included at Annex A. Details as to whether the application was dealt with under delegated powers or by committee (and in those cases, the original officer recommendation) are included with each summary. In the period covered, three of the appeals determined related to applications refused by committee.

<b>12/03690/FUL</b>	<b>Chowdene, Malton Rd, Huntington</b>	<b>Pitches for 20 touring caravans and toilet block</b>	<b>Dismissed</b>	<b>Refuse</b>
<b>13/00455/FUL</b>	<b>15 Moor Lane, Haxby</b>	<b>Bungalow to side</b>	<b>Dismissed</b>	<b>Approve</b>
<b>13/00474/FUL</b>	<b>14 York Road, Strensall</b>	<b>Dormer bungalow to rear</b>	<b>Allowed</b>	<b>Approve</b>

- 8 The list of current appeals is attached at Annex B. There are 14 planning appeals lodged with the Planning Inspectorate. Also in the table is the Public Inquiry for the application for 102 houses at Land to the North of Brecks Lane, Strensall which has been called-in for determination by the Secretary of State.
- 9 The quarter performance at 42% allowed is higher than for recent quarters. The current 12 month performance at 27% allowed is a significant improvement on the figure for April 2012 – March 2013 (42%), and is a continuation of the trend back towards the national ‘benchmark’ figure of 33% allowed. The initial impact of the publication of the NPPF (March 2012) on appeal outcomes (which saw many cases allowed) appears to have receded, with the trend in CYC performance continuing to improve as the use and interpretation of policy and guidance within the NPPF (by both the Council and the Planning Inspectorate) has become more consistent.
- 9 The main measures successfully employed to regain the previous performance levels have been as follows:-
- i) Officers have continued to impose high standards of design and visual treatment in the assessment of applications provided it is consistent with Paragraph 56 of the NPPF and Development Control Local Plan Policy.
  - ii) Where significant planning issues are identified early with applications, revisions are sought to ensure that they can be recommended for approval, even where some applications then take more than the 8 weeks target timescale to determine. This approach is reflected in the reduction in the number appeals overall. This approach has improved customer satisfaction and speeded up the development process, and, CYC planning application performance still remains above the national performance indicators for Major, Minor and Other application categories.
  - iii). Additional scrutiny is being afforded to appeal evidence to ensure arguments are well documented, researched and argued.
